

*ADJUSTABLE ANGLE MAGAZINE WITH PICK-OFF PIVOT ASSEMBLY*

ABSTRACT

[0033] An adjustable angle magazine for a nail gun includes a pick-off pivot assembly. The pick-off pivot assembly pivotally couples the adjustable angle magazine to an adjustable angle nose casting assembly of the nail gun. Further, the pick-off pivot assembly increases the instances that a nail loaded into to the adjustable angle magazine is presented under a driver blade of the nail gun in a correct position.
